Dear Yvonne,

Thank you! Your generous gift of \$11,239.31 received on July 3, 2018 is deeply appreciated, and has been doubled by our Matching Gift Campaign to \$22,478.62. Your congregation's support helps to provide over 100,000 meals, homes for over 100 people, 660 shelter beds, support for 100 youth, and over 700 dental visits. This contribution brings community, compassion and hope to the lives of the 1,000 homeless and marginalized people who will walk in our doors this coming year.

You are touching the lives of people like William, a refugee claimant escaping persecution. William was a volunteer, supporting people in the Drop-In, and now has a part-time staff position.

"When my volunteer work turned into a part-time job offer here at ehm, it reinforced to me that coming to Canada was the best decision I ever made. I now have a job I'm passionate about, I'm gaining Canadian work experience, I'm building a new life here in Canada and I'm helping to make a difference in so many people's lives. I never knew I would be so passionate about my work. I can attest to how special a place ehm is. While I'd like to become a paramedic, I have this feeling I'll stay attached to ehm forever. It's like my first love in Canada.

"I left my home country because I was facing persecution. I know how important it is to feel safe when you feel like you have no place to turn. ehm reminds me of the good in the world. I'm proud to be part of a community with people like you who care for those in need." — William

Thank you for choosing to be part of our donor community and including us in your local mission work. Thank you for choosing to help people like William. We hope you will continue to be part of this life-changing work throughout this year.

Please know you are welcome to contact us to arrange visit in person to see your donations at work. As well, I look forward to meeting with your congregation in September to share the impact of your generosity and how you are changing people's lives.

Sincerely and with best wishes,
